

## Evaluating the performance of API endpoints

<https://aroma-coffee-nwen304.herokuapp.com>

### GET: /api/shop/items

From 200 requests (ms)

min: 916.4

max: 1400.8

median: 924.3

### GET: /api/shop/cart

From 200 requests (ms)

min: 919.6

max: 1377.1

median: 927

### GET: /api/shop/orders

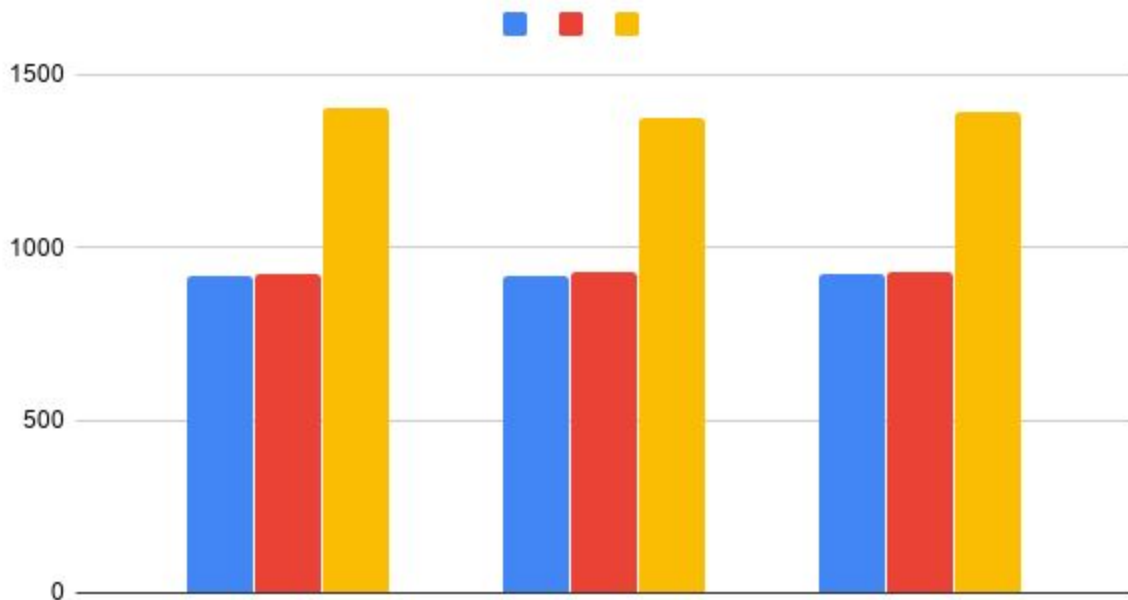

From 200 requests (ms)

min: 921.7

max: 1392.7

median: 927.8

Chart Of API Response Times

Blue = min, Red=median, Orange=max

In order of items, cart, then orders. The Y axis is response time in ms.
